* CVV2 is a security measure we require for all transactions. Since a CVV2 number is listed on your credit card, but is not stored anywhere, the only way to know the correct CVV2 number for your credit card is to physically have possession of the card itself. All VISA, MasterCard and American Express cards made in America in the past 5 years have a CVV2 number. This number is printed on the signature area of the back of the card for VISA and MasterCard, and is on the front of the card for American Express.
